Subject: HYSPLIT plume forecast, issued at 1000 PM Sunday 12/01/2019.

Here is the link to the latest HYSPLIT plume forecast, issued at 1000 PM Sunday 12/01/2019.

<http://www.hysplit-pub.noaa.gov/hysplitpublic-bin/hyresults.pl?jobidno=23123>

Moderate northwesterly winds will continue through the evening becoming somewhat weaker overnight and shift more to the north northwest towards daybreak. The plume will remain largely confined to an area between Hwy 69 and FM 366 (and points south southeast of these roadways) through the evening and overnight.
